PDS Chlorofluor Toothpaste 130g

With all the benefits of chlorhexidine and fluoride, this light textured toothpaste leaves a fresh, minty flavour in the mouth and enables people to transfer to an oral medicament without altering their brushing habits.

With all the benefits of chlorhexidine and fluoride, this light textured toothpaste leaves a fresh, minty flavour in the mouth and enables people to transfer to an oral medicament without altering their brushing habits.

A great everyday toothpaste to keep your gums, teeth and breath, healthy and fresh.

Due to the natural abrasive quality of the toothpaste, it is extremely unlikely to cause staining and can be used for extended periods.

Spit, do not rinse for 5 mins to receive the full benefit of the chlorhexidine.

SAVE 20%!

PDS Neutraset 2% Detergent Solution Clear 5L

Neutral pH, 2% non-ionic detergent solution for surface and pre-disinfection cleaning.

Neutraset can be used for the removal of biological soiling (removal of blood, bodily fluids and tissue fragments) from clinical surfaces prior to disinfection and surgical instruments and equipment (including dental handpieces) prior to sterilisation.

Will not deactivate disinfectants or chemical sterilants.

Can also be used in ultrasonic baths to assist cleaning.

Biodegradable.
